EDUCATION

University at Buffalo, SUNY, School of Engineering and Applied Sciences

Bachelor of Science in Computer Science

Aug 2021 — Aug 2025

Relevant Coursework: Software Security, Embedded Operating Systems, Computer Security, Modern Network Concepts, Computational Linguistics, Systems Programming, Software Engineer Concepts

PROJECTS

Chat Security Simulation

Oct 2024 — Dec 2024

Developed and deployed a secure chat application backend, integrating credential protection (.env files) and testing robustly for XSS, SQL injection, and DoS vulnerabilities.

DotAnimation

Jun 2024 — Aug 2024

Built backend authentication with OTP verification, hashed/salted credentials, masked usernames, and protection against SQL injection, XSS, and information-leaking errors.

RELEVANT EXPERIENCE

AI Trainer

Nov 2025 — Present

Handshake AI Fellowship

Remote

- Developed and evaluated domain-specific prompts to assess the performance of LLMs in multimedia scenarios.
- Analyzed LLM outputs for scientific accuracy, clarity, and depth in specialized subfields
- Contributed to improving AI understanding of complex multimedia concepts through expert review and feedback
- Conducted independent research to support prompt development and evaluation tasks

Cybersecurity Student Team Lead

April 2023 — Aug 2023

Discovery Lab Global

Dayton, OH

- Led a team of 3 to prepare to the Security+ certification exam while coordinating assignments and deadlines through effective communication.
- Contributed to a 100-page technical document and 30-page educational guide on cybersecurity fundamentals for high-school teachers.

University at Buffalo Lockdown

Sept 2023

University at Buffalo

Buffalo, NY

- Participated in a [university cybersecurity lockdown simulation](#), collaborating in a team to assess real-time vulnerabilities, apply incident response strategies, and implement countermeasures by identifying and fixing security weaknesses.

TECHNICAL SKILLS

Languages

Python, Java, C, HTML, JavaScript

Software and OS

Linux (Ubuntu), Windows, Git, VSCode

Additional

Adobe Suite (Premiere, Photoshop), Wireshark, Microsoft Suite (Excel, Word), PuTTY, Oracle VM, Zoom/Teams

CERTIFICATIONS

CompTIA Security+

Oct 2025 — Oct 2028
